GREAT EASTERN HOLDINGS

Great Eastern's AI is working. The next step is proving its value in dollars.

Pre-read for a discussion with the leadership team · October 2026

PLUMB ADVISORY

Who we are

‹to confirm: lead advisor — name and insurance, AI and MAS-regulated experience›

‹to confirm: two relevant engagements or references›

Every figure here cites the page it came from; quotations and method are in the accompanying report

‹to confirm: name, email, phone›

Great Eastern's AI delivers speed, but no benefit is yet reported in dollars

75%

of medical claims settled same day in 2025

S$131m

one-year profit effect of 10% better accident and health claims

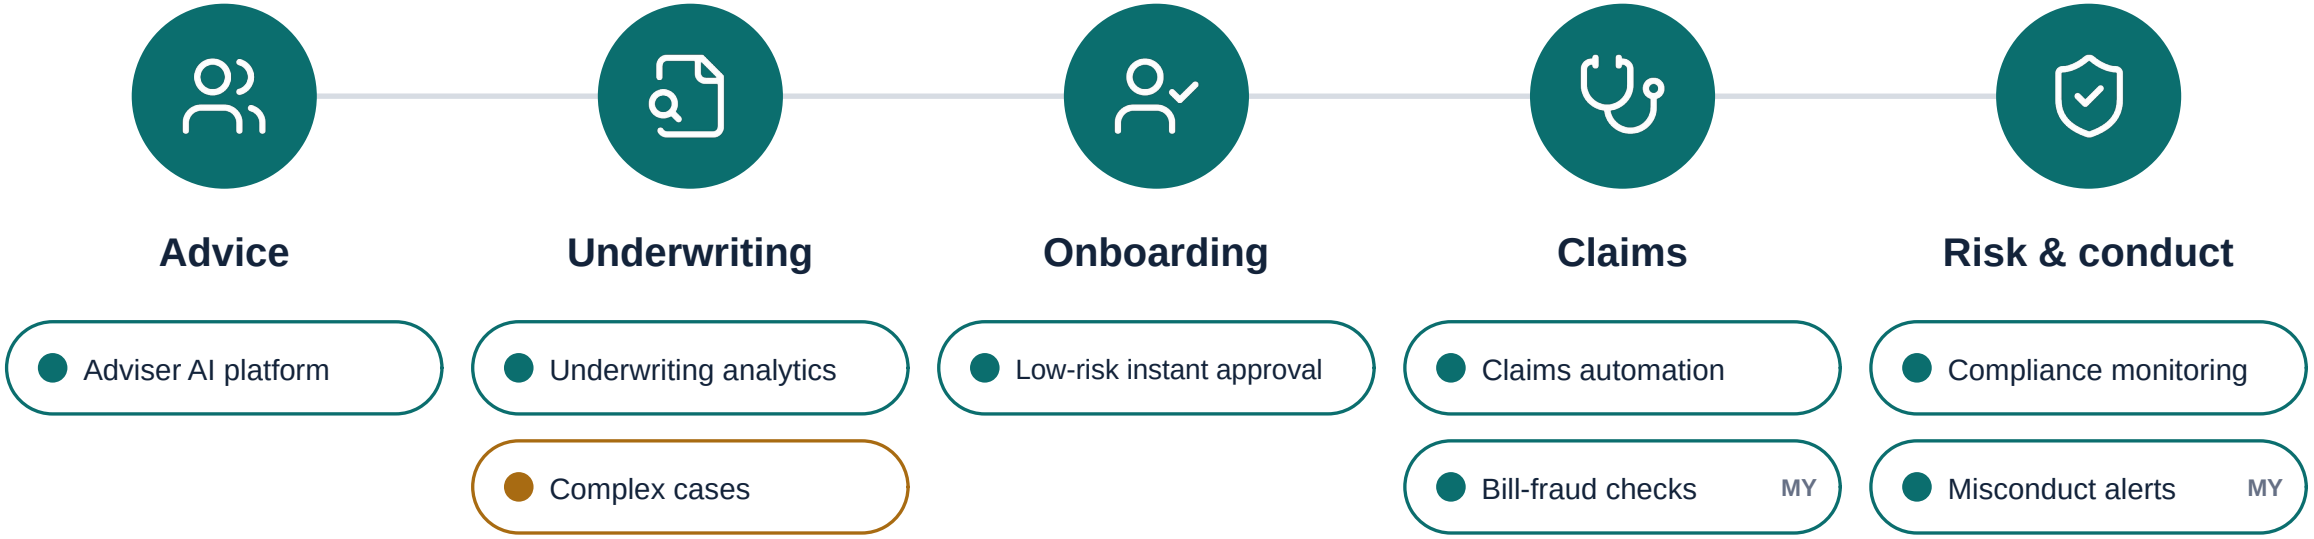

0 of 8

AI uses reported with a dollar benefit

Source: Great Eastern Holdings Annual Report 2025, pp. 6, 12, 38, 41, 186, 187

WHERE AI IS IN USE

AI is live from advice to claims, with complex underwriting still in testing

In use · Testing · MY = Malaysia operations

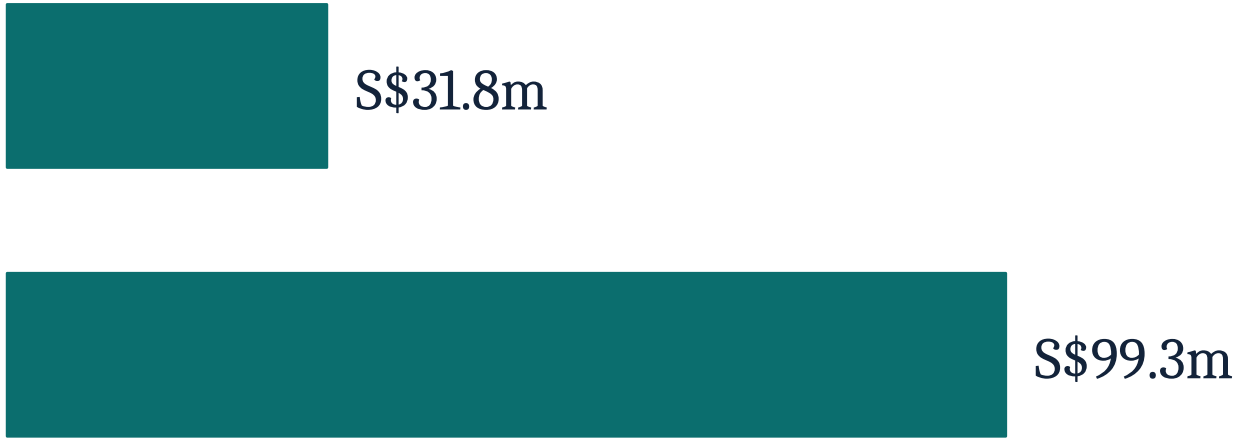

REPORTED OUTCOME

Advice	Underwriting	Onboarding	Claims	Risk & conduct
~75% less prep time	*None reported*	*None reported*	75% same-day	*None reported*
TARGET			RESULT	

Source: Great Eastern Holdings Annual Report 2025, pp. 6, 12, 38, 41

WHERE THE VALUE SITS

10% better accident and health claims would add S$131m to a year's profit

Group S$131.1m

Profit after tax, S$ million, net of reinsurance

ADDRESSABLE BY AI

- Claims leakage and fraud
- Medical cost management
- Faster, cleaner adjudication

Great Eastern's 2025 assumption sensitivities, not a forecast of AI benefit. Contractual life benefits excluded.

PEER COMPARISON

Regional peers have begun reporting AI value in dollars

	AI VALUE REPORTED	WHAT IT COVERS	SOURCE
AIA			
Prudential			
Manulife			
Great Eastern	Speed metrics, e.g. 75% same-day medical claims		Annual Report 2025

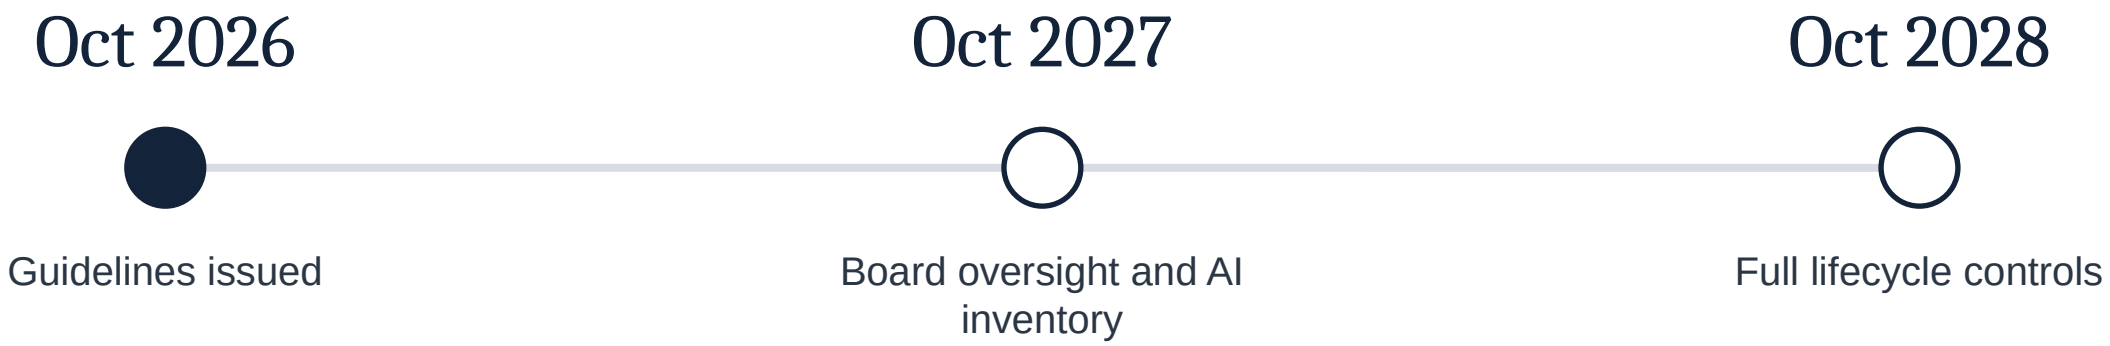

AWAITING SOURCE DOCUMENTS

Peer figures are self-reported and defined differently; each is checked against the peer's own report.

Source: Great Eastern Holdings Annual Report 2025, p. 38

REGULATORY TIMELINE

MAS's AI risk guidelines set a timeline for evidencing AI governance

AWAITING SOURCE DOCUMENTS

Dates and expectations confirmed against MAS's published guidelines before use.

AI has board oversight and dedicated leadership; the annual report does not set out the AI framework

	In the 2025 annual report
Board-level AI oversight	✓
Data & AI leadership and operating model	✓
AI policy or principles	○
AI inventory and risk tiers	○
Model risk management for AI	○

Public disclosure only, not an assessment of practice; OCBC group frameworks not reviewed.

● Described ○ Not covered in the report

Source: Great Eastern Holdings Annual Report 2025, pp. 39, 65, 71, 78

Three testable hypotheses would turn this outside-in view into decisions

01

Value

Medical-claims AI can improve accident and health claims 2–5% in 18 months

02

Governance

Most MAS AI expectations can reuse OCBC group frameworks

03

Scale

Production criteria, not model accuracy, hold back complex underwriting AI

PROPOSED NEXT STEP

A six-week assessment would test these hypotheses with your leadership team

YOU RECEIVE

- Sized AI value pools
- AI inventory and risk tiers
- Production path for next use cases

THE ASK

A 45-minute working session with the CEO, COO, CRO and Data & AI lead in *‹to confirm: week›*
